

EUROTEK.2010 AWARDS

EUROTEK recognises that there are individuals who have achieved great things in Diving Exploration, Marine Engineering and Development, Education and the field of Science. At the EUROTEK.2010 Gala Dinner we wish to present a number of awards, voted for by the Advanced Diving Community. This is your opportunity to nominate the people and products that have influenced your diving career and development.

Please note that the immediate previous winners are not eligible to be nominated for the same award this year.

EUROTEK.2010 Innovation Award

An Advanced or Technical Diving product/innovation that has enabled you to further your diving or made your diving safer.

I wish to nominate

For the EUROTEK.2010 Innovation Award because

The EUROTEK.08 Award Winner was Martin Parker and Ambient Pressure Diving for the Inspiration Rebreather

EUROTEK.2010 Publication of Significance Award

An Advanced or Technical Diving Publication that has educated/inspired/influenced your diving.

I wish to nominate

For the EUROTEK.2010 Publication Award because

The EUROTEK.08 Award Winner was Joe Porter and Wreck Diving Magazine
