DIETRY REQUIREMENTS

If you or anyone in your party has special dietary requirements for evening dinner or packed lunches; ie 'don't like fish, allergic to Strawberries, Gluten Free, Vegetarian, Plain Crisps only, I like Apple Juice' etc; please detail these here or overleaf.

Win a VRX Computer courtesy of VR Technology

Do you desire a top of the range mixed gas diving computer worth over £1,000? Well now's your chance to win a VRX courtesy of VR Technology. Just buy a raffle ticket for €2.50 and you could be the happy recipient of a VRX. The draw will take place at the EUROTEK.2010 Gala Dinner on Saturday 16th October.

Those of you familiar with the VR3 will discover the VRX is a lighter smaller model, benefiting from a rechargeable battery, and comes complete with the PIN Codes allowing you to dive it as a Trimix Open or Closed Circuit Computer, and the VGM Algorithm. This unique feature gives you the opportunity to tailor your decompression to your needs and mimic any other decompression algorithm.

And if you don't win this computer, don't despair. VR Technology is delighted to announce that they are offering good deals if you wish to trade in your current/old diving computer, and it doesn't need to be a VR3. Any computers are accepted. For further information log onto www.technologyindepth.com This offer is for a limited time only!

The EUROTEK Team would like to publicly acknowledge and thank VR Technology for their generosity in kindly donating a VRX Computer to help support 'The Rebreather Site' www.therebreathersite.nl to attend EUROTEK.2010.

Each raffle ticket costs €2.50, or you can buy 5 tickets for €10.00 and get a free entry! To enter, simply send your Euros using PayPal to jw.bech@quicknet.nl Please include your name, address, telephone number and email details. (You can enter as many times as you like). All funds raised will go to 'The Rebreather Site'. This will help the team cover some of their travel expenses from Holland enabling them to display their historical rebreathers and diving equipment at EUROTEK.2010.

**Win an X-Scooter DPV *Cuda 650* - worth £4000!
- Courtesy of Deep Ideas and Dive Xtras**

The EUROTEK Team is thrilled and delighted to announce that those very nice people from Deep Ideas (the UK Distributor of X-Scooters) and Dive Xtras (the USA based Manufacturer) have very kindly donated a Cuba 650 DPV to be auctioned off in aid of Depththerapy – the Disabled Diving Charity.

Over the last five years the X-Scooter series of DPVs (Diver Propulsion Vehicles / Underwater Scooters) have become widely recognised as the market leader in terms of size, weight, manoeuvrability, power, reliability and performance. These industry benchmarks have been achieved through innovative designs, specialised research and thorough testing, hence each scooter benefits from a 3 year warranty.

Probably one of the most popular models to emerge from the X-Scooter stable is the Cuda 650. It's liked because of its ultra

efficient brushless motor that effortlessly outpaces other scooters on the market, whilst still retaining the workhorse reliability that X-Scooters are renowned for. The Cuda 650 benefits from the fine balance of power and endurance of the Cuda Range, whilst retaining some of the flexibility and manoeuvrability the Sierra was famous for. Currently the 650 is the lightest NiMh based Cuda available and suffers from no travel restrictions due to it's battery technology.

To get your sticky paws on one, you have a couple of options. Come to EUROTEK.2010 and purchase a Cuda. Alternatively you could win one! To enter simply buy a book of five raffle tickets for £5.00. (see below)

The funds raised from this raffle will go to the Depththerapy Foundation.

The Cuda Raffle will be drawn at the EUROTEK.2010 Gala Dinner.

Founded in 2009 by Fraser Bathgate, the Depththerapy Foundation raises money to help rehabilitate disabled war veterans through scuba diving.

The long term aim is to broaden the scope so that all disabled people will be able to access the programme.
